Profilo Aziendale

Pentagono Rubinetterie nasce dalla passione di chi ama il proprio mestiere e conosce perfettamente i propri prodotti. Senza tralasciare la tradizione, l'Azienda ha cercato nuove strade per imporsi come garanzia all'interno del mercato globale. Qualità, Servizio, Design, Accessori, Prezzo. Ecco perchè il nostro nome è Pentagono; perchè abbiamo scelto questi 5 punti come fondamento del nostro operare. Il nostro staff, unito da un'esperienza più che trentennale nel settore della rubinetteria, è in grado di proporre una vasta gamma di apparecchi e componenti che soddisfano tutte le esigenze della moderna installazione. Dalla progettazione alla produzione, il ciclo produttivo è seguito attentamente in ogni suo passaggio per garantire sempre la massima qualità e sicurezza. Accurata scelta delle materie prime, lavorazioni realizzate con centri di lavoro robotizzati ad alta precisione e costanti controlli di qualità per ottenere finiture e prodotti di alto livello. Linee moderne, classiche e "retro", il nostro catalogo contiene una esauriente selezione di forme e applicazioni in grado di arredare ogni bagno o cucina in ogni parte del mondo. Il XXI secolo è un'era nuova di consapevolezza e sfida. Sforzo globale rivolto allo sviluppo di prodotti e servizi che riflette responsabilità sociali ed ecologiche. La necessità di un cambiamento è motore di innovazione, e la definizione di imprese come successo nel mercato. Noi siamo pronti..... il made in Italy cammina con noi!

Company Profile

Pentagono Rubinetterie comes from the passion of those who love their job and knows their products. Not forgetting the tradition, the company has sought new ways to establish itself as a guarantee in the global market. Quality, service, design, assortment, price. That's why our name is Pentagono; because we have selected these 5 points as base of our operating. Our staff, linked by an experience of more than thirty years in the sector of taps and mixers, is able to suggest a wide assortment of items and components which satisfies all the needs of the update installation. Starting from the design to the production, the manufacturing cycle is carefully followed in any its step, always to guarantee the best quality and safety. Carefully choice of the raw materials, processing realized with automatic robotized working centers at high precision and regulars checking of quality to get finishes and products of high-level. Modern ranges, classic and old-age, our catalogue encloses a complete selection of shapes and applications which are able to interior every bath and kitchen all over the world. The 21st century is a new era of awareness and challenge. Global effort towards developing products and services that reflect social and ecological responsibility. The need for change is driving innovation, and defining how businesses succeed in the marketplace. We are ready.....made in Italy walk with us!

ARTHA ECO SERIES

Aggiungere caratteristiche importanti a questa linea è veramente difficile, ma la versione "ECO" rispetto agli Umbra, Energia, Acqua e Ambiente sono completamente integrati per progettare questa linea nel futuro.

TECNOLOGIA COLD = RISPARMIO DI ENERGIA grazie al design interno della cartuccia. La tecnologia Cold è il default per evitare accenderli involontario della caldaia ed inutile consumo di Gas Metano. Un sistema che garantisce un notevole risparmio oltre ad un maggior rispetto per l'ambiente.

TECNOLOGIA ACQUA = RISPARMIO ACQUA grazie agli aeratori con limitazione di portata. Gli aeratori WS7 utilizzati per questa linea, riducono il consumo idrico >50% con benefici economici ed ambientali. Portate idriche limitate e costante in ogni condizione di utilizzo della pressione, eccellenti per rubinetti di alta gamma.

...Obiettivo raggiunto.

Addire importanti features to this line is really difficult, but the "ECO" version goes beyond all limits. Energy, Water and Environment are fully integrated to project this line in the future.

COLD TECHNOLOGY = ENERGY SAVING thanks to the internal design of the cartridge. The low flow Cold is the default to avoid unintentional firing of the boiler and unnecessary consumption of methane gas. A system that guarantees significant savings as well as greater respect for the environment.

WATER TECHNOLOGY = SAVING WATER thanks to aerator with flow limiter. The WS7 aerator used for this line reduces water consumption >50% with economic and environmental benefits. Limited and constant flow regardless of pressure fluctuations, excellent for high range faucets.

...Goal achieved.

Nuova, affascinante ed aggressiva. Esprime la volontà di ricercare nuove tendenze, ispirandosi alle nuove e moderne "concept car". Raggiature accentuate e tagli netti si bilanciano perfettamente per rendere questa linea esclusiva ed universale. Nata per far parlare di sé. by Mapelli Cristian design. Serie con cartuccia da 35 mm.

New, charming and gritty. It expresses the desire to search new trends, inspired by the new and modern "concept car". Accentuate rays and net cuts are balanced perfectly to make this line exclusive and universal. It was born to be talked about! by Mapelli Cristian design. Serie with cartridge 35 mm.

SAVING

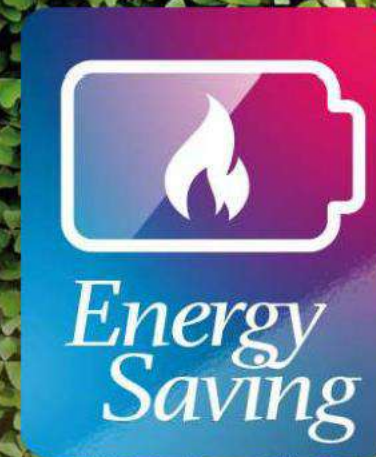

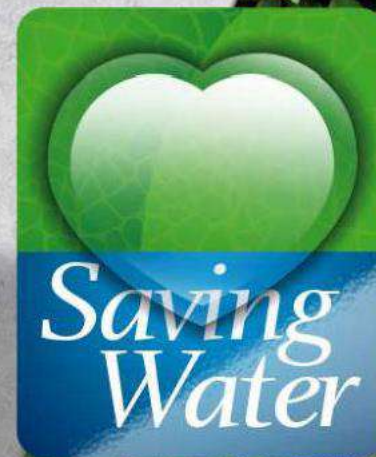

Available in 1/2" and 3/4" pipe sizes. Pentagono's limited and constant flow faucets are independently tested and certified by the International Association of Plumbing and Mechanical Officials (IAPMO). They are available in chrome, stainless steel, and brass finishes. They are also available in low flow and low pressure applications. Pentagono's limited and constant flow faucets are available in 1/2" and 3/4" pipe sizes.

Water saving energy saving faucets. Limited and constant flow regardless of pressure fluctuations. They are an excellent option for top range faucets, low flow or low pressure applications. Pentagono's limited and constant flow faucets are available in 1/2" and 3/4" pipe sizes.

DI TIMIZZAZIONE DEL FLUSSO DELL'ACQUA GRAZIE AD UNO STOP INTERMEDIO AL 60% DELLA CORSA TOTALE CHE FORNISCE UN RISPARMIO D'ACQUA FINO AL 50%.
WATER FLOW OPTIMIZATION THANKS TO A MID-WAY STOP AT 60% OF THE LEVEL STROKE THAT PROVIDES UP TO 50% WATER SAVING.

ENERGY SAVING

RISPARMIO ENERGETICO GRAZIE AL DESIGN INTERNO DELLA CARTUCCIA. FLUSSO DI SOLA ACQUA FREDDA ANCHE NELLA POSIZIONE CENTRALE. ENERGY SAVING FEATURE THANKS TO THE INTERNAL DESIGN OF THE CARTRIDGE, FLOWING COLD WATER WHEN THE LEVER IS CENTERED.

Special Cold Technology for kitchen

TECNOLOGIA COLD = RISPARMIO DI ENERGIA grazie al design interno della cartuccia.

La leva è in posizione fredda di default per evitare accensioni involontarie della caldaia ed inutile consumo di Gas Metano. Un sistema che garantisce un notevole risparmio oltre ad un maggiore rispetto per l'ambiente.

COLD TECHNOLOGY = ENERGY SAVING thanks to the internal design of the cartridge

The lever is in cold position by default to avoid unintentional ignition of the boiler and unnecessary consumption of methane gas. A system that guarantees significant savings as well as greater respect for the environment.
